PROFESSIONAL SUMMARY

Results-driven Senior Software Engineer & Frontend Lead with 5+ years of experience architecting high-performance, scalable web and mobile applications. Specialized in React.js, Next.js, TypeScript, and React Native, with a proven track record integrating 3,000+ APIs, leading full-cycle product development, and driving measurable improvements in code quality and performance. Skilled in cross-functional collaboration, architectural refactoring, and mentoring engineers to accelerate team velocity.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Frontend:** React.js, React Native, Next.js, JavaScript (ES6+), TypeScript, React Hooks, HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, Material-UI (MUI)
- **State & Data:** Redux Toolkit, Zustand, TanStack Query (React Query), WebSockets, RESTful APIs
- **Backend & Cloud:** Node.js, Express.js, Python, MongoDB, AWS, Docker
- **Tools & Dev Quality:** Git, SonarQube, Figma, D3.js, Chart.js, Formik, React Hook Form, Yup, Unit Testing
- **Methodologies/Roles:** Agile/Scrum, Team Leadership, Atomic Design (Design Systems), UAT Management

PROFESSIONAL EXPERIENCE

Q3 Technologies Pvt. Ltd. | Gurugram, India (Hybrid)

Feb 2025 – Present

Sr. Software Engineer

- **Technical Ownership:** Assumed end-to-end ownership of the frontend repository, contributing 80% of total project commits (1,606 total) and managing 214k+ lines of code changes across 352 unique files with zero downtime.
- **Code Quality & Governance:** Drastically improved security and maintainability by reducing SonarQube issues from 376 to 0 and eliminating all 27 active bugs, maintaining a near-perfect production codebase.
- **Real-Time Engineering:** Developed resilient WebSocket handling and batch-fetching logic, enabling stable, high-performance real-time graph updates for thousands of concurrent data points.
- **Architectural Refactoring:** Optimized system performance by refactoring core modules, deleting 50% of redundant code while increasing reusability and reducing cyclomatic complexity.
- **Mentorship & Scaling:** Accelerated team productivity by onboarding junior developers and cross-training a Java developer to React proficiency within 10 days, enabling independent contributions.
- **UI/UX Transformation:** Executed a full-scale UI overhaul using Atomic Design patterns, translating Figma specs into a reusable component library (design system) of modular, pixel-perfect, accessible UI components.
- **Release Management:** Orchestrated monthly release cycles and UAT integrations, maintaining a peak throughput of ~60 commits per month.

Harns Technology Pvt. Ltd. | Bengaluru, India (Remote)

Sep 2022 – Jan 2025

Software Development Engineer-II (SDE-II)

- **Platform Development:** Engineered the Woovet Online Pet Hospital platform, scaling the application to support multiple international clinics; mapped 500+ routes and integrated 3,000+ APIs to ensure seamless data flow.
- **Payment Integration:** Integrated Telr and Clover Connect payment gateways, enabling secure, multi-regional financial transactions.
- **Dashboard Creation:** Designed and implemented the Woovet Admin Dashboard and CEO Dashboard using D3.js and Chart.js to build dynamic, graph-based data visualizations for complex business requirements.
- **Mobile App Leadership:** Led end-to-end development of an eCommerce mobile application for a Dubai-based client using React Native; translated Figma designs into dynamic mobile UIs and improved load times via client- and server-side caching with Redux and TanStack Query.

- **Feature Engineering:** Integrated Google Analytics, Tamara payment gateway, and Android push notifications, while implementing smooth pagination and caching for thousands of eCommerce products.
- **Project Delivery:** Delivered 4 high-impact projects within 2.5 years, implementing multilingual support for global accessibility and collaborating consistently with UI/UX designers and backend teams.

Mindrops Pvt. Ltd. | Delhi, India

Mar 2022 – Aug 2022

Software Developer Associate

- **Full-Stack Delivery:** Built the Admin Call-Record Log Dashboard (React, Node.js), managing data for thousands of users and improving administrative efficiency.
- **Rapid Development:** Delivered 3 distinct client projects, including a responsive horticulture platform, within a 6-month timeframe.

Mindrops Pvt. Ltd. | Delhi, India

Oct 2021 – Mar 2022

Software Developer Intern

- **Frontend UI:** Developed responsive interfaces using React.js and Redux, assisting in the release of full-stack features using the MERN stack.

EDUCATION

- Master of Computer Applications (MCA) — IGNOU, Delhi | 2024 – 2026 (In Progress)
- Bachelor of Arts (BA) — School of Open Learning, Delhi University | 2019 – 2022
- Diploma in Engineering — H.S.B.T.E | 2014 – 2016

CERTIFICATIONS & AWARDS

- **Certifications:** ReactJS (Hooks, Redux, Next.js); The Complete Node.js/MongoDB Bootcamp; The Web Developer Bootcamp — Udemy
- **Awards:** Team Leadership Commendation (2024); “Bringing Humor and a Fearless Voice” Award (2023)
